Chapter 1

Requirements Documentation

1.1 Functional Requirements

Functional requirements will specify a behaviour or function. Squire's functional requirements are:

1.1.1 Communication (bolt1003)

- Global text chat.
- Per project local chat.
- Private chat between users.
- A friends list with friend status icons and avatars.
- A global list of members in the project and status.
- Use of standard protocols such as XMPP or IRC.
- Third-party chat client access.
